

CMS[®]
SUPPLY

Innovation and availability —
anticipating your operational needs.

www.cmservices.cl

Equipment, tooling, and innovative supply solutions.

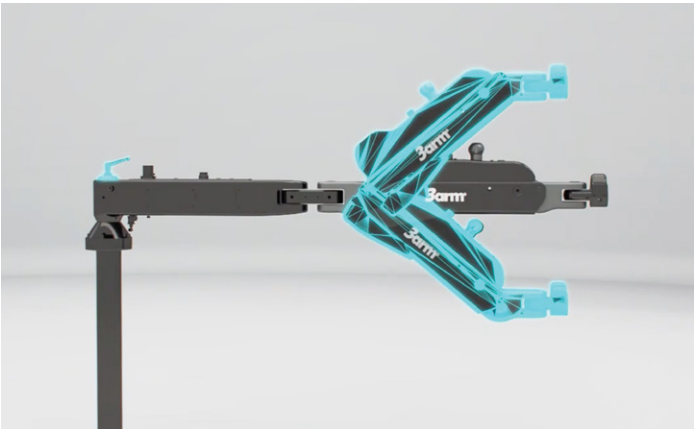

Import and supply of equipment, tools, components, and spare parts for mining and industry.

We focus on solving our clients' operational challenges through practical, safe, and innovative solutions — delivering quality, reliability, and specialized support for every field requirement.

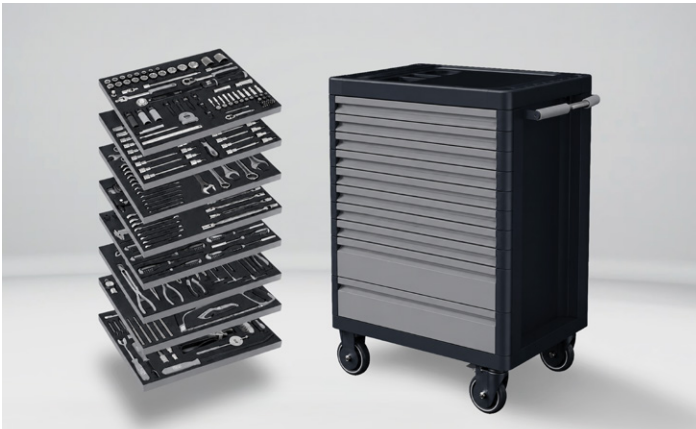

➤ Mammut M200-90 Hydraulic Jack

A safe and user-friendly lifting solution for earthmoving machinery, construction equipment, quarry operations, and mining fleets.

➤ 3arm Series 7 Ergonomic Arm

Ergonomic balance arm for high-weight power tools, featuring pneumatic or manual brake and interchangeable heads for multiple tool applications.

➤ Tool Storage Carts

Heavy-duty rolling tool carts engineered and configured to maximize efficiency, safety, and operational performance on site.

➤ Stationary Equipment

Engine-driven welders, air compressors, autonomous generators, lighting towers, and high-pressure washers for mining and industrial use.
