TECHNICENTER

Technical expertise and reliability for
your equipment.

www.cmservices.cl

We know your tools are a capital investment. We help you protect them.

CMS Technicenter is a specialized service center providing maintenance, repair, and restoration services for tools and equipment used in mining and industrial operations. All work is performed using OEM parts and strictly following manufacturer-specified procedures — ensuring reliability, operational safety, and sustained uptime.

ISO 9001:2015 Certified Operations

Our commercialization, maintenance, repair, inspection, and testing processes for mining and industrial tools and components are fully certified under ISO 9001:2015.
